

- 3 Power controller all in one product
- Voltage supply 480-600V
- Process data always available via fieldbus
- Frontal Leds for easy Diagnostic
- RMS voltage, current and power monitoring
- V-I-V²-I²-P Control Mode
- All types of Firing and Control Modes available
- RS485 and USB port
- Complies with EMC
- Cable wiring and space reduction

REVO TH Catalog 2022

REVO TH

REVO TH is a three independent power controller, designed to manage heating elements within production processes that use electric heating

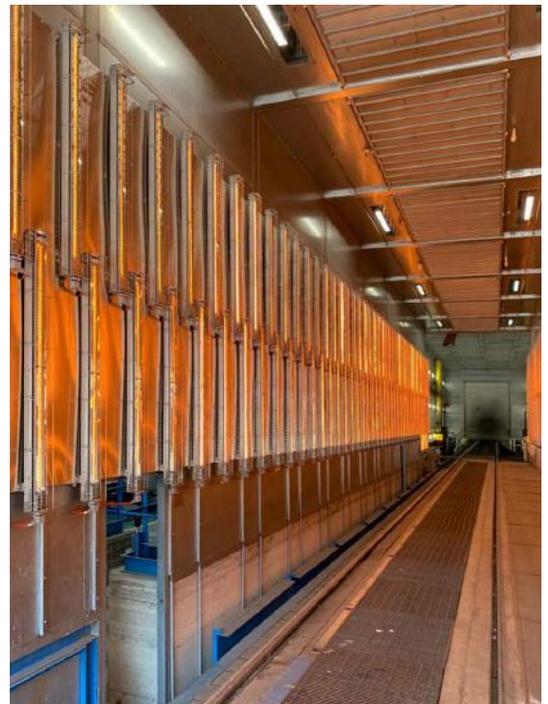

This series is suitable for industrial applications in the following sectors:

- Multi-zone ovens
- Plastics machines (extruders and extrusion lines, extrusion heads and hot runner mold control units)
- Packaging machines
- Long, medium and short wave IR lamp ovens

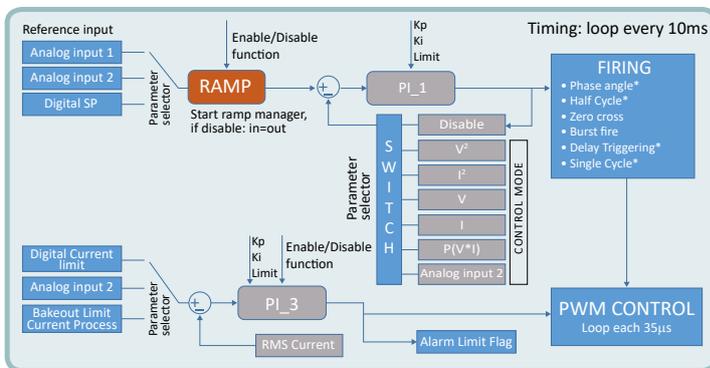

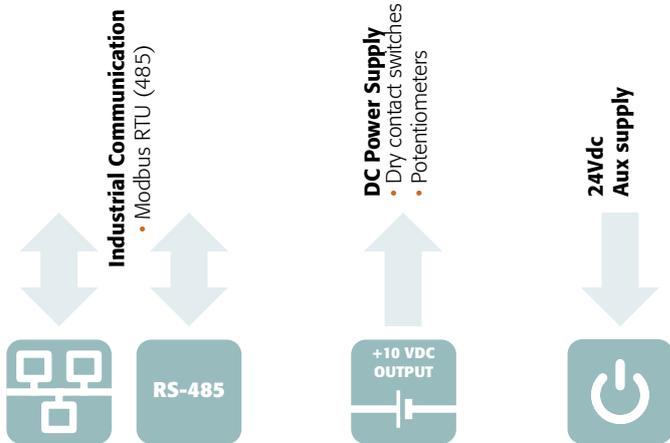

REVO TH integrate in a single product up to THREE independent power control, which include:

- Three independent single-phase thyristor power controller
- Fixed extrarapid fuses
- Current transformers
- V - I - V² - I² - P Control Mode
- Input signal in digital mode, no link jumpers inside
- Firing mode: Single cycle, Half cycle, Burst, Phase Angle, Delayed Triggering, different types of adjustable ramp
- Two Analog input
- Two Digital input
- Load and SCR diagnostics
- Current limit feature
- Outputs for alarms

Multiple REVO TH modules can be used and connected to a communication module to communicate with the most common field buses.

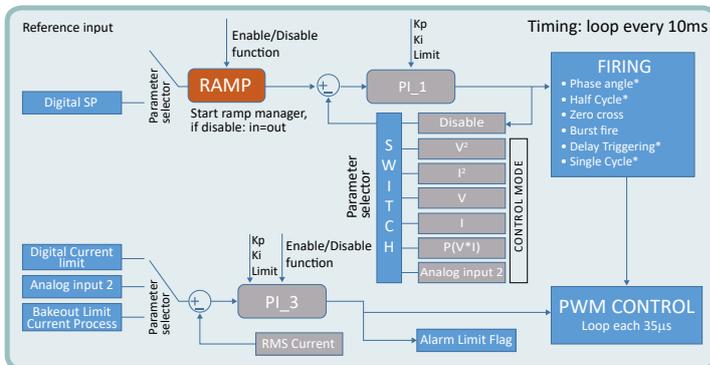

USB

- Configuration
- Software connections

Fan power

- 24 Vdc

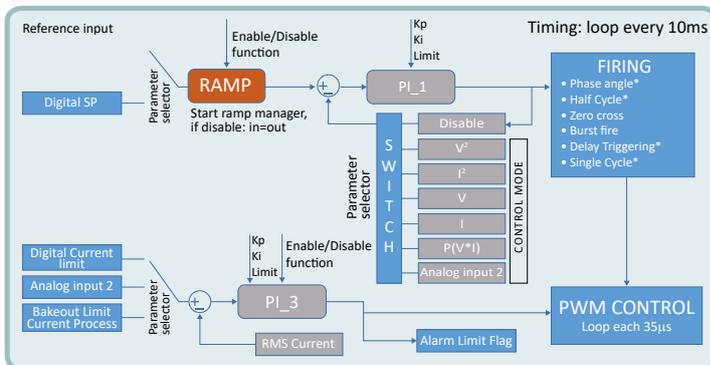

Mechanical Relay Output

- Alarm Annunciation

2 analog inputs

- Set point
- Feedback
- Current limit

2 digital inputs

- Enable
- Select feedback
- Local remote
- Set firing mode

REVO TH

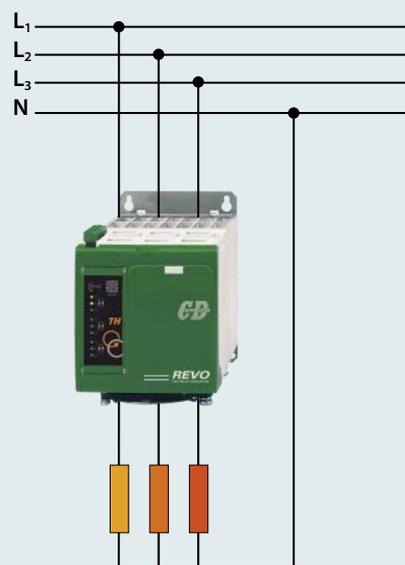

FEATURES AND DIMENSIONS

	DESCRIPTION	
LOAD TYPE	Max voltage 480V	•
	Max voltage 600V	•
	Single phase	•
	3 phase load star with neutral	•
	3 phase load open delta	•
INPUT TYPE	SSR 4:30VDC	•
	4:20 mA	1
	0:10 Vdc	1
	Potentiometer	1
FIRING	Single Cycle	•
	Half Cycle	•
	Burst Firing	•
	Phase Angle	•
	Delayed Triggering	•
	Zero Crossing	•
CONTROL MODE	Open Loop	•

Dimensions (mm): H180 x W116 x D183 - 2,35Kg

Technical Specification

- Current:** 35A - 50A - 75A - 90A
- Load Type:** Normal Resistance, Infrared Short, Medium and Long, Transformer Primary, Cold resistance and SiC elements
- Inputs:** RS485 Modbus RTU communication and DI
- Firing Mode:** Single Cycle, half Cycle, Burst Firing, Phase Angle, Delayed Triggering, Zero Crossing
- Control Mode:** Voltage, Current and Power or V2 and I2 with additional Transfer to VxI
- USB:** Port integrated
- Approvals:** Comply with EMC

GENERAL FEATURES

Display Software

0.1	LED Diagnostic	LED diagnostics provides clear alarm notification
0.2	Fully Software Configurable	REVO TH is fully Software configurable

Electrical Features

1.1	Current rating	35 to 90A
1.2	Voltage	Up to 600V
1.3	Integrated Fuse	Reduces labour time and cabinet space compared to external fusing whilst benefiting from internal fan cooling helping to reduce fuse temperature
1.4	Quick and easy access to Fuses	Fuses and thyristors are mounted directly behind the front panel door.

Firing

2.1	Firing mode	Half Cycle, Single Cycle, Burst Firing, Delayed Triggering Phase Angle and Soft Start
2.2	Universal Input	The std analog inputs 0-1V, 0-5V, 0-10V, 0-20mA, 4-20mA
2.3	Control Mode 3x1Ph	REV can be configured for Current, Voltage Power feed back or open loop

Communication

3.1	Modbus® RTU	Standard
3.2	USB device on front unit for configuration	Allows the user to easily and safely configure the REVO TH unit by powering through the USB connection only, without connecting a standard voltage line supply

Extra Features

4.1	Automatic Selection of the configuration	Automatically select the correct parameters for your application via Configurator Software by using the wiring and load type icons via PC configuration software
4.2	HB and Sc Alarm	Alarm for Partial or Total Load Failure and Short Circuit on SCR with Electromechanical Relay output 5A at 30Vdc
4.3	High precision measurement (True RMS Value for V, I and VxI)	≤1%
4.4	Free configuration Software	Easy to use and powerful Configurator Software, available free of charge from www.cdautomation.com

General Features and Approvals

5.1	Industry-leading and Serviceability	Generous sizing of Thyristors and Thermal Parts using high efficiency Heatsink
5.2	Approvals	CE-EMC
